

About the Create2Thrive Shop

The Create2Thrive Shop is a great way to buy kCDesigns. We offer hundreds of patterns from independent designers and more are being added all the time. Plus, Create2Thrive is integrated with Ravelry! Just link your shop account to Ravelry and it will know if you've already purchased the pattern on Ravelry.

Indicates you already purchased the PDF on Ravelry, the price displayed is just for the kCDesign.

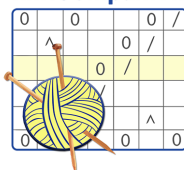

No icon, no problem! The price shown is for the PDF+kCDesign. All PDF purchases are handled via Ravelry in-store sales so that:

- You can add the pattern to your Ravelry library.
- The designer receives 100% of the PDF price.

When you purchase a kCDesign from the Create2Thrive Shop, you are supporting your favorite designers, Ravelry, and our small business.

knitCompanion

About knitCompanion & kCDesigns

kCDesigns

knitCompanion is an app that provides awesome tools for keeping track in any pattern. With knitCompanion you knit faster, make fewer mistakes, and frog less:

- Your key is always visible.
- Link separate charts together for easy tracking.
- Get reminders as you move along your rows, no more hassle to track “at the same time” instructions.
- Supports advanced capabilities for charts and written instructions including row markers, stitch markers, highlighting, Magic Markers, and much more.

kCDesign is a new pattern format that gives you all the advanced knitCompanion tracking tools with no setup.

- **No setup is required!** The setup is done so you can just knit.
- Pattern options such as sizes, motifs, guided or standard charts and more are built in.
- kCDesigns are complete with One Tap Row Markers, Charts, Keys, Row Reminders, Smart Counters, etc.
- You can add your own highlights, notes, and Magic Markers. If you have purchased Setup you can further customize your project to suit.
- kCDesigns work in both Free and Paid versions of knitCompanion.
